PROFESSIONAL SUMMARY

Motivated Cyber Security undergraduate at Sir Syed University of Engineering & Technology, with hands-on knowledge of network security, ethical hacking, and risk management. Proficient in Java, Python, HTML/CSS, and MS Office. Demonstrated ability to build and deploy real-world projects including a cloud-deployed game and a Java-based Smart Home Device System. Complemented by practical certifications in Digital Marketing, E-Commerce, Social Media Marketing, and UX/UI Design. Currently teaching secondary-level students in Mathematics, Physics, Chemistry, and Computer Science. Eager to contribute technical skills to real-world cyber security challenges.

EDUCATION

2025 - 2028 BS Cyber Security, Sir Syed University of Engineering & Technology (SSUET) — In Progress

2024 Intermediate Science (Pre-Engineering), Adamjee Govt. Science College

2022 Matriculation (Science), Board of Secondary Education Karachi

PROJECTS

Tic-Tac-Toe Game — Cloud Deployment on Microsoft Azure

- Designed and developed a fully functional Tic-Tac-Toe web game with interactive UI
- Successfully deployed the application to Microsoft Azure App Services (Southeast Asia region)
- Gained hands-on experience with cloud hosting, deployment pipelines, and live web application management

Smart Home Device System — Java OOP Final Project

- Built a console-based Smart Home simulation system using core Java OOP principles
- Implemented abstract classes, inheritance, and polymorphism to model devices: Fan, Light, AC, and Thermostat
- Each device supports power control, mode settings, and status reporting through overridden methods
- Demonstrated clean code structure and real-world system design thinking

Python Automation & Scripting Projects

- Developed Python scripts to automate repetitive tasks and improve personal workflow efficiency
- Debugged and optimized small-scale Python programs for peers and classmates
- Applied concepts of error handling, functions, and file I/O in practical scenarios

Data Management & Reporting — Microsoft Excel

- Built structured Excel dashboards for tracking student academic performance data
- Applied formulas, conditional formatting, and pivot tables to generate actionable insights
- Demonstrated proficiency in data entry, organization, and presentation

EXPERIENCE

Private Tutor | Self-Employed | 2026 - Present

- Teaching secondary-level students in Mathematics, Physics, Chemistry, and Computer Science
- Simplifying complex concepts to improve student understanding and exam performance
- Developing customized study materials and practice exercises for students

SKILLS

Programming Languages: Java, Python, HTML, CSS

Cyber Security: Network Security, Ethical Hacking, Risk Management, Cyber Threat Awareness

Digital Marketing: Social Media Marketing, Facebook Marketing, E-Commerce, Online Brand Promotion

Design Tools: Figma (UX/UI Basics), Microsoft Office Suite (Word, Excel, PowerPoint)

Cloud & Deployment: Microsoft Azure App Services

AI Tools: Proficient in using AI tools (ChatGPT, Claude) for productivity, content creation, and problem-solving

Soft Skills: Teaching, Multitasking, Dependable, Quick Learner, Team-Oriented

Languages: Urdu (Native), English (Proficient)

CERTIFICATIONS & COURSES

- Digital Marketing Course — Youth Evolution Foundation (YEF Digital Boost Camp)
- E-Commerce Course — Youth Evolution Foundation (YEF Digital Boost Camp)
- Cyber Security Self Defense (AI in Ethical Hacking) — Webinar — Trion Institute
- UX/UI Figma for Beginners — Webinar — Trion Institute
- Social Media Marketing — Webinar — Trion Institute

EXTRACURRICULAR ACTIVITIES

- Cricket — active team player
- Swimming & Gym — committed to physical fitness
- Technology enthusiast — stays current with emerging tech trends
